

Course # 48.033008 A / B

Michael G. Hennessy
Broadcasting and Film Instructor
Davidson Fine Arts School
HenneMi@BOE.Richmond.k12.ga.us

In the Broadcasting & Film courses, students are given a balance of content in three main areas:

- Equipment Technology and Techniques
- Organizational Skills for Production
- Creative Aspects

Course Goal - In Film Tech, students will be producing short films in class and on campus.

1st Nine Weeks - Film Production Equipment Operations

- Grip
- Electric (lighting)
- Camera support and movement
- Intro to Editing

2nd Nine Weeks

- Production Management
- Shooting Flow
- Page Turn and Rehearsals
- Editing Continued

3rd Nine Weeks

- The class will produce a silent short film*, suitable for entry into the Media Festival. Production work will be done in class. Last year in the 7th Grade "Pre-Film"

This is a link to the video & film editing software DFA students will be using. USE THE FREE VERSION. It works on Mac or PC.
