A Shared Commitment

The IB connects a worldwide community of learners who celebrate a common humanity and share a belief that education can help to build a better and more peaceful world. Schools offering the Primary Years Programme (PYP) bring a shared commitment to the IB's mission through the learning community.

Education is a social or collective endeavor and a benefit to the community as a whole, as well as to the individuals within it. Everyone in the learning community has agency; they see themselves as contributors to its ongoing strength and success and take action to bring about change.

To foster international-mindedness, the learning community extends to the whole IB community and views the world as the broadest context for

learning. It is inclusive of everyone involved in the life of the school: students and their families, all school staff members and other important adults in the students' lives. By situating learning within local and global communities, outcomes are considered from individual and collective perspectives, highlighting the interdependence of everyone and everything.

Together the learning community:

- lives peacefully together
- prioritizes people and their relationships
- assumes shared responsibility for learning, health and well-being.
